

THE RADAR GIFTS!

THE GUY

It's not just that he's already received every Sharper Image-style doodad over the years, or that he's more than happy to treat himself to big-ticket items without the justification of a holiday season. The issue is that the guy simply can't be wowed by yet another clever gadget. So don't even try. Surprise him with an entirely different strategy—timeless, no-duh essentials. A new briefcase, a fresh pair of cuff links, and yes, even a tie. These are cliché guy gifts for a good reason: You simply can't go wrong—if you pick the right one.
